

## Comprehensive Foot Plating System

A comprehensive forefoot, midfoot, and hindfoot plating system merges modern technology with plating basics. This system is truly balanced by a comprehensive selection, providing surgeons with universal plates of all sizes and shapes to match the anatomical structures of the foot while providing procedure-specific plates to allow for correction of complex deformities.

## 45+ Universal Options

Universal plates offer a comprehensive solution, accommodating a wide range of applications within a single, intuitive tray. These low-profile plates accept both non-locking and multiple variable angle locking (MVA) screws from 2.0mm to 3.5mm.

### Intuitive, Modular Tray Design

Our multi-level tray utilizes a modular design allowing the user to customize the tray with the specific implants and instrumentation required for the case thereby reducing the footprint in the operating room.
